

Thank you for your interest in Choice and Chance Finance. This resource was presented by Molly Rose Fehringer, a Training Developer with First Interstate Bank. Information regarding this financial education resource is made available with thanks to the First Interstate Foundation.

What is Choice & Chance Finance?

- Educational tool for teenagers
- Interactive board game format
- Designed to teach basics of personal finance
- Placed in classrooms in over 40 states

Choice and Chance Finance is an educational tool designed to teach teenagers the basics of personal finance and other important economic concepts. The educational aspects are integrated within the framework of the board game to quickly attract students' interest and provide them a relaxed setting for learning. Since the game was developed in 2008, it has been placed in classrooms in over 40 states across the country.

Who Created Choice & Chance?

- Developed in 2008 by Drury University SIFE in Springfield, MO
- Student teams develop projects to create economic opportunity
- Drury SIFE partnered with the First Interstate Foundation

Choice and Chance Finance was developed in 2008 by the Drury University Students in Free Enterprise (SIFE) team, of which Molly Rose Fehringer was a member. SIFE is a global non-profit organization for college students.

Student teams develop projects to create economic opportunity by teaching concepts related to free market economics, business ethics, entrepreneurship, personal finance, and success skills. Drury SIFE completes 27 projects each year and Choice & Chance Finance is just one of those.

In 2009, Molly Rose Fehringer formed a partnership between Drury SIFE and the First Interstate Foundation to bring Choice and Chance to Montana. Future projects for the partnership include the development of online educational resources, coming soon.

Educational Standards

- Endorsed by the Missouri Council on Economic Education
- Achieves three standards set by the Council for Economic Education:
 - Scarcity
 - Role of Incentives
 - Growth

MISSOURI COUNCIL
ON ECONOMIC EDUCATION

Choice and Chance Finance is accompanied by a lesson plan developed by Drury SIFE. This game, paired with the lesson plan, has been endorsed by the Missouri Council on Economic Education and also meets three standards set by the (National) Council for Economic Education.

Overview of the Game

- Students will be challenged to make financial decisions in real-life situations
- Teaches concept of personal finance:
 - Balancing incomes and expenses
 - Managing personal bank accounts
 - Financial investments

Students will be challenged to make financial decisions in real-life situations. Choice and Chance teaches concepts of personal finance: balancing incomes and expenses, managing personal bank accounts, and understanding financial investments.

Premise of the Game

- You just graduated from high school and are ready to start a new chapter of life.
- Do you want to go to college or start working?
- **It is your choice!**

Suppose you just graduated from high school and are ready to start a new chapter of life. However, you are uncertain whether to go to college or start working. Your parents have some savings for your tuition, but they also said they will let you choose. Do you want to go to college or start working?

It is your choice!

Quick Facts

- Each game allows 6 students to play at a time
- The board is printed on mouse pad material
- A package of games includes 5 game boards and costs \$120
- An individual game is priced at \$30

Each board game accommodates 4-6 players. Game play takes about 45-60 minutes when paired with the lesson plan.

The board is printed on mouse pad material, which makes it easy to fold and store and also muffles the sound of the die for a quiet classroom experience.

All game boards come packaged with instructions, the accompanying lesson plan, and a ledger to be copied and used by all students.

A package of 5 game boards costs \$120 and accommodates up to 30 students. Individual game boards cost \$30 each. Both prices include shipping. Games can be ordered through Molly Rose Fehringer.
